

# CeLAN VBS Touch Screen

DS-Ce-TS-VBS Rev A

The Ce-TS-VBS Touch Screen provides a 5.7" Color LCD (liquid-crystal display) for operational control of the vehicle barrier when used in conjunction with a Rampart control panel. The touch screen allows full Rampart system programming including all VBS programming options. A scrolling status bar allows the user to view the system status during normal operation. User log-in protocols via a keypad/keyboard provide high level security measures. Touch screens communicate via the CeLAN data bus originated within the Rampart control panel. All communications are supervised and offer a programmable system option to revert to redundant manual buttons in case of a failure.

All actions require a confirmation from the user to complete the task.

A scrolling Status bar alerts the user to any system troubles

## Features

- CeLAN AES encrypted technology for security, easy setup and enhanced performance
- 5.7" Color Touch Screen with protective display overlay and Lexan shield
- Simple, easy to use Graphical User Interface
- Optional agency or customer artwork
- System user passcodes for user tracking
- System menu driven programming
- Two hardware input zones per module, for back box tamper or wall tamper
- Scrolling system status bar
- Multi back-box mounting options
- 'CINCH Stick' Field Upgradeable software
- Internal sounder and backlight idle options

## Specifications

### Power Requirements:

- Input: 12 VDC (8 VDC min, 14 VDC max)
- Output: N/A
- Current Draw: 240mA standby, 500mA max

**Dimensions:** 8.26" x 5.24" (L x W)

### Environmental:

- Operation Temp: 32 to 120 F (0 to 49 C)
- Humidity: 90% relative humidity

### Storage Temp:

- -30 to 140 F (-34 to 60 C)

### Inputs:

- 2 supervised, for box tamper or security device

### CELAN Devices per System:

- 100 CeLAN Devices

### Accessories:

- Face Plate –
- Backbox –
- Mounting Plate –
- Faceplate Decal – RC-CeTSL
- Touch Screen Assembly – RC-TS
